DETAILED ACTION***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3,4,6,7,9, are rejected under 35 U.S.C. 102(b) as being anticipated by USP 5,522,114 (Allison).

Figure 1 illustrates a floor cleaning tool (10) which comprises a support element (32), a power driven rotatable brush (80), a pivot lever (56) pivotally connected to the housing, adjusting element (36,66) that is supported by and connected to a mounting point (68), and a biasing spring (54,60) that is connected to the housing and to a spring connection point on the pivot lever displaced away from the pivot point of the lever (56).

Claims 1,3,4,7,8,9,11,12, are rejected under 35 U.S.C. 102(b) as being anticipated by USP 3,676,892 (Nordeen).

The Nordeen patent discloses a vacuum cleaner comprising a support element (12), brush roller (15), a pivot lever (24), an adjusting element (11), and a biasing spring (16) with either end of the lever (24) acting as a pivot point.

Allowable Subject Matter

Claims 2,5,10,13-18, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
